

REVISION: B1

Product Overview

The Sensory Wall Cascade from Universal Fibre Optics offers a unique sensory experience which will captivate the mind and provide a soothing effect for many children and adults.

Unlike similar products, the UFO Sensory Wall Cascade has an inbuilt remote control LED light source with full colour change. This avoids the need for bulky and hot external units. We have also incorporated a unique cantilever mounting bracket, allowing for secure fixing and much more freedom in the positioning of the Cascade. Our Cascade system can easily be installed on walls, or above doors, and swung out ready for use. No other system offers so much flexibility.

The PMMA fibre used in this product has CPSIA and EN71 toy certifications. This means you can be sure you are buying a safe, rigorously tested product.

Cascade Specifications

Fibre Type	2.2mm diameter PMMA side sparkle
No. of Fibre Tails	90, all at 2 metre length
Operating Environment	Indoor / Dry
Material / Finish	Aluminium / White powdercoat
Dimensions	52mm diameter at either 1000 or 1200mm long

Electrical Specifications

Supply Voltage	110-240 VAC 50/60 Hz
Power Supply	External 12V PSU
Power Consumption	2-5W in colour cycle mode

Driver Box Specifications

Material / Finish	ABS / White
Dimensions (LxWxH)	137mm x 114mm x 73mm
Cable Length	2 metre cable to cascade

Note that the driver box is connected by cable to the cascade body. It contains the electronic components necessary to drive the LED in the cascade.
