## Cabinet Extrusions | Flex & Stay

# UFO LIGHTING

FIBRE OPTIC & LED LIGHTING SYSTEMS

REVISION: B1

## Product Overview

UFO flex and stay systems are terminations which are integral to the harness; they are flexible but hold the position they are pointed in. As detailed, 6 standard sizes of system are available, all in a chrome or black finish. Custom sizes can also be manufactured to suit your application - please contact us with required dimensions for a quote.

Standard flex and stays are fitted with either the UFO 25D or 26D trumpet and lens, however as shown in the photo, we can also manufacture custom ends for use in light guide applications.

The flex and stay systems are suitable for indoor use only.

Matching mounting feet are also available and these are supplied pre-mounted onto the harness.

## Standard Model Details

Product Code	Length	Flex Diameter	Active Diameter	Standard Lens
UFS-103	300mm	11mm	4.5mm	UFO25D or UFO26D
UFS-110	1000mm	11mm	4.5mm	UFO25D or UFO26D
UFS-203	300mm	14mm	6mm	UFO25D or UFO26D
UFS-210	1000mm	14mm	6mm	UFO25D or UFO26D
UFS-303	300mm	15mm	7mm	UFO25D or UFO26D
UFS-310	1000mm	15mm	7mm	UFO25D or UFO26D

See diagram above for dimension positions.
