

Cracked Glass Fibre Harness

Universal Fibre Optics glass fibre optic harnesses offer unparalleled light output, very long life and extraordinary colour characteristics.

Benefits of UFO Glass Fibre

- Unique fused technology
- High temperature resistance which offers the best possible light output without heat filters
- UV resistant common end
- Flexible multi-fibre construction
- High packing density ensures compatibility with tightly focussed light sources
- High quality glass fibres offering exceptional transmission and colour characteristics
- Factory terminated common ends for superior quality, performance and longevity

TECHNICAL INFORMATION

Outer Diameter	2.2mm
Core	1.1mm cracked glass bundle
Sheathing Material	Transparent PVC
Maximum No. of Tails*	500

*Maximum capacities are stated above. In normal usage we will fill a common end to only 90% of its capacity (or 75% if specified with a Gemini light source). This ensures that a consistent light output is delivered through all fibre tails.
